Methodology for evaluation of tender

Offers received against open/Limited tender from various bidders for supplies of the materials are evaluated as under:

(A) Evaluation for Domestic bidders.

(i) All the offers are compared on delivered net of Modvat (CENVAT) basis i.e. total delivered price excluding CENVAT element & VAT credit wherever it is applicable .

(ii) Payment linked discounts are not considered for evaluation of offers.

(iii) Offers are evaluated on our normal 60 days payment terms basis from the date of receipt of material at our unit's stores. However any extra credit given for more than 60 days will not be considered for evaluation. In case credit is given for less than 60 days the differential interest shall be calculated at applicable PLR rate to evaluate all the offers on 60 days basis. In the event of offers received for imported material, and the credit period offered is more than 60 days LIBOR rate of interest, as applicable on **1.12.2009**, shall be taken into consideration for evaluation.

(iv) In case of offers received with letter of credit payment terms the L/C opening charges at our banker's prevailing rate is loaded for evaluation. However Bidders are discouraged for submitting offers with L/C payments terms specially for domestic supplies.

(v) **SHORTAGE:-** Bidders who ask for shortage to be allowed in quantity, their prices would be loaded by that much extent to which shortage has been asked for while evaluating the Price Bids.

(B) Evaluation of offers for imported materials :

In addition to the above, in case of offers received for imported materials the foreign currencies rates, as prevailing on the date of opening of the bids, are converted in Rupees plus 3% is added to cover exchange fluctuation for the FOB/C&F/CIF price only. After this the prevailing Custom Duty & CVD as applicable is added alongwith clearing and forwarding, transportation charges from port to our factory. Amount of CVD admissible as CENVAT is then deducted from delivered cost to arrive at NOM rates.

1% landing charges are added on CIF value to arrive at assessable value on which Custom Duty etc are added (Landing charges are not included in the cost) as it is only for arriving at assessable value).

While evaluating offers of imported material 37 days (30 days transit time & 7 days clearing forwarding time) credit period is reduced from the actual credit offered by the tenderers, if the shipment is from European countries, USA, U. K. whereas 27 days (20 days transit time & 7 days clearing forwarding time) credit period is reduced from actual credit offered by the tenderers if the shipment is from Asian countries like China, Japan, Singapore etc.
